

NAB's petition 04-160 should be rejected by all constitutional rights. I pay for satellite radio and it should not be dictated by the NAB as to what I am permitted to hear or not hear.

If big government doesn't have anything better to do than take away more of Americans rights, then we are truly in a state of severe terror!! Congress - it's time you started working for the people and not against them at every turn. Keep in mind who elects you and pays through the nose for you, your family and all the luxuries you THINK you deserve while the rest of us American working dogs struggle to make ends meet. Get a grip on what your "job" really is!
